

OUR HISTORY IN THE MEDICAL FIELD

Our parent company, Thermal Custom Packaging, has been developing and distributing non-toxic phase change material (PCM) freezer packs and insulated totes since 2008. We continue to be trusted by laboratories, hospitals and healthcare systems that have utilized our products to transport organs, blood and other specimens across the United States, even up to 250,000 specimens a day.

Now YOU can have the same technology at your disposal with the Ice Buddy.

Pride in Precision

Phase Change Material (PCM) is capable of storing and releasing large amounts of energy, allowing it to maintain a temperature within a specific range in an insulated container. It is an ice and dry ice replacement that keeps accurate temperature control without the mess.

The Ice Buddy is perfect for fishing, hunting, camping, travel, food storage, you name it!

Energized by freezing, it replaces or extends the life of ice, and can keep your foods frozen.

ICE BUDDY

THE ULTIMATE FREEZER PACK

The Ice Buddy is a high performance, non-toxic, non-hazardous cooler companion for an active lifestyle. The applications for use are endless!

The Ice Buddy will maintain 19.4 Degrees Fahrenheit, which is colder than ice!

Stays Colder Longer! The Ice Buddy is reusable and will outperform any standard freezer pack, keeping contents both cold and dry.

Extremely durable, these freezer packs are safe, environmentally friendly and can be reused for up to 5 years!

The tough hard outer shell is perfect for traveling.

Treat your environment well and conserve water by extending the life of traditionally bagged ice, or by replacing it all together. The Ice Buddy is perfect for your cooler or lunch box.

Keeps Items Cold and Dry! The Ice Buddy does this through a chemical reaction achieved by first “charging” the pack (Freezing at 10 Degrees Fahrenheit for 24 hours).

Take it fishing and camping!

The Ice Buddy does not require any special handling, training or costly hazmat fees which make it a great alternative to dry ice for cold shipping and many other uses.

Tough! Our hard exterior shell construction can take a beating and withstand the test of time.

Available in two sizes:

Medium 9 6/16" Long x 7 3/16" Wide x 1 6/16" Deep

Large 12 1/2" Long x 8 1/2" Wide x 1 5/8" Deep

Environmentally Friendly! Non-toxic and non-hazardous, the Ice Buddy is reusable for up to five years.

Longer Lasting Ice! In a well-insulated cooler, the Ice Buddy can extend the life of ice for at least 24 hours.

Non-Toxic! The Ice Buddy is a great alternative to hazardous and environmentally unfriendly gas emitting dry ice.
